PreGo

School table with castors

Design — Iiro Viljanen

The PreGo student table with lockable castors is a versatile choice for individual and group work in learning environments. Castors make it easy to move and tables can be stacked, if needed. Bag hooks at both ends of the top and rounded corners improve user comfort and safety. The base is also available with fixed glides instead of castors.
The PreGo school desk is available with a choice of colours and laminates. The colour of the base can be customised with shades from Martela's Inspiring Colours range.
