Sola

Stolbenk

Design — Antti Kotilainen

Stolbenken Sola egner seg i korridorer, vestibyler og venterom, hvor det er viktig at møblene står pent på plass. Stolbjelkene finnes i tre forskjellige lengder, og stoler av forskjellig størrelse i produktfamilien Sola kan monteres i bjelken. Koblingsbeslagene sikrer at stolraden står i rett linje. Det polstrede setet er også tilgjengelig med et mer komfortabelt soft-trekk.
